Please note that for this keylogger you must have an email and a password. CONSULGRO Description: ConsulGrO is a smart graphics filter, scanner and print optimizer. ConsulGrO works by scanning your images (both color and black and white), and then it determines whether or not they are worth displaying on your monitor or printer. If you select an image file that is too large to print, ConsulGrO can often reduce the file to fit the page in just a few minutes. By reducing your images file sizes, you can make your files faster to download, and consume less space on your hard drive. If you are printing, ConsulGrO can often increase the quality of your printed pages by reducing the 2edc1e01e8
