KeyMacro is the only free software to detect and fill Web Forms. When the Web page is retrieved,

the form is filled with a "macro" by KeyMacro. Macro means:
keysting=macrostring¯ostring=macro. Macro can be used to auto-fill fields for any selected form. But it can also be used to auto-fill web pages, such as: □ A web form for auto-filling into order form □ Your online bank statements □ Your online account check □ Your online bill pay □ Your online bank account □ Any e-mails, credit card account □ All eBay orders □ Your stock portfolio □ Your software or game account You just need to copy the keysting from the Web page or online form, and use it in the form of keysting=macrostring¯ostring=macro. For example: □ name=AAA&address=BALDRICK,MOTILAWYNE □ name=BBB&address=CALVADOS □ name=CCC&address=ALEXANDRIA □ name=DDD&address=EDDINGTON □ name=EEE&address=WILMINGTON □ name=FFF&address=AUBURN If the form has many fields, you can copy them by pressing Ctrl + C or Ctrl + X on your keyboard. Then you can type a new keysting for any field. Carbon Copy Pro allows you to Copy the text from any web page or email. A shortcut on the desktop will allow you to copy any web page or email. A shortcut in the menu bar will allow you to copy a whole email. This feature is built into your Web browser, so all you have to do is copy the text or URL address and paste it in another browser. The quickest way to copy the text from a web page is to click the blue button at the top right of a page. Another way is to use the middle mouse button on a web page to drag the cursor to the blue button, select it and then press Ctrl + C or Ctrl + X. The export feature of ZipWall Pro allows you to save any data to a Zip format file. ZIP stands for "zip archive 2edc1e01e8
