The present invention is applicable for use in hybrid vehicle traction drives or transaxles as well as powertrains utilizing motor drives for traction motors or traction drive motors coupled directly or indirectly to the transmission. Hybrid electric vehicles (HEVs) utilize two basic power sources, an internal combustion engine and an electric motor that work in conjunction with each other to provide propulsion power to a vehicle traction drive. Hybrid vehicles can be further classified into three categories depending on the type of motor used to power the traction drive: series, parallel, and series-parallel hybrid drive trains. The type of electrical
